

# When you are the **best**, people notice!

**There is no one I have ever worked with as passionate and committed to success as Ron Deese.** In starting up the staffing division at AFL, Ron built a successful full service organization that served many of the largest companies in our industry. I heartily endorse Ron and the great service he provides to companies in need of staffing support.

**John Cerasuolo**  
Vice President, AFL

**Ron's 30-plus years experience in Telecom — combined with his ability to sell at the executive level — brought top line results to my business.**

He is high energy, detailed, professional, and results driven. I would recommend Ron for any Business Development initiative or Professional Staffing requirements nationally.

**Donn Peterson**  
VP & GM, Andrew Services/  
Conscope

**Ron Deese met with us almost immediately and within a few weeks found us a seasoned telecom recruiter with all the skills we required and got our program established.** Dynis is also using TelForce Group for Business Development Services. He recruited 50+ wireless professionals for Dynis. It has been a pleasure to work with Ron and TelForce.

**Earl Scott**  
President, Dynis

**Ron and his team quickly assessed our needs and delivered a well thought out solution within days.**

Little did any of us know this would be the beginning of a highly productive relationship which would culminate in the hiring of more than 300 top notch wireless professionals over a six year period (2003-2009).

**Joe Commander**  
Program Manager,  
General Dynamics

**Black Box has used the services of Ron and his team when Ron was affiliated with other staffing companies for over 15 years.** Our need for contract manpower remains constant for projects across the country. Now that Ron has launched TelForce Group- we will continue to work with him and his team. Recently we had the need for 5 technicians- TelForce Group delivered those technicians within 18 hours notice.

**Jamie Casteel**  
Installation Manager, Black Box

**ATT was in need of 50 + OSP Engineers to design FTTCs (fiber to the cell site) throughout the state of MS.** Our Mini Master vendors were tapped for resources. Ron Deese of TelForce Group was contacted to assist with the required resources. Ron having an Outside Plant Engineering background quickly went to work to recruit Human Capital- within 6 weeks- TelForce Group provided 12 OSP Engineers in several Districts in the state when our primary resources could not.

**Dale Primeaux**  
State Director, AT&T

**Ron and his team committed to the project immediately after the first phone call.** Ron understood perfectly the impact an opportunity of this magnitude had on our business, and went quickly to work on creative problem solving. Within six weeks, Ron and his team delivered the first of more than fifty qualified, pre-screened tower climbers to us in Vancouver, Canada in preparation of the 2010 Winter Olympics.

**Mike Jarvis**  
President, WesTower Communications
